Project Life Cycle
Objective: Increase project effectiveness and efficiency by using a standard project lifecycle

- ID Project Mgr
- Develop summary project charter

Concept (CON)
- Develop detailed project charter

Investigation (INV)
- Develop detailed project definition
- Prove feasibility of high risk areas

Development (DEV)
- Design process, develop detailed implementation/change mgmt. plan

Pilots
- Verify project against project definition
- Confirm readiness through pilot test

Implementation (IMP)
- Complete process & implementation
- Confirm readiness of project deliverables and process performance

Sustain (SUP)
- Monitor, operate and manage process to meet goals

- All triangles indicate decision to proceed
- Indicates checkpoint with executive sponsors

Project Retrospective
